

# Estimated impact of flood raster on population polygon

## Event location

## People affected by hazard

**3.1**  
Thousand  
Affected

**20**

**Displaced**

In this analysis, people are considered to be affected if they are exposed to the hazard, and considered to be displaced if they are exposed to high or medium hazard.

**Affected people:** People who are affected by a hazardous event. People can be affected directly or indirectly. Affected people may experience short-term or long-term consequences to their lives, livelihoods or health and in the economic, physical, social, cultural and environmental assets. In InaSAFE, people who are killed during the event are also considered affected.

(UNISDR (2015) Proposed Updated Terminology on Disaster Risk Reduction: A Technical Review)

**Displaced people:** Displaced people are people who, for different reasons and circumstances because of risk or disaster, have to leave their place of residence. In InaSAFE, demographic and minimum needs reports are based on displaced / evacuated people.

(UNISDR (2015) Proposed Updated Terminology on Disaster Risk Reduction: A Technical Review)

**Displacement rate:** 5% affected in High hazard zone, 3% affected in Medium hazard zone, 1% affected in Low hazard zone, 0% affected in Use caution hazard zone

## Estimated number of people exposed by hazard level

## People displaced by age and gender

**0.0%**  
Infant
